United 305

• KEEPS WINDSHIELD WASHERS WORKING FOR CLEAR DRIVING VISION DOWN TO -10°F.

A special concentrated windshield cleaner and anti-freeze which assures normal washer operation in sub-zero weather. Helps clear windshield of dirt, road film, slush, road splash, ice and salt haze. Will not streak or smear. Recommended for use in all types of washer systems. Prevents cracking and breakage of washer system parts in freezing weather.

DIRECTIONS: FALL AND WINTER:

Add to wash jar or bag as follows:

United 305 (parts)	Water (parts)	Antifreeze Protection
1	4	15°F to 32°F.
1	3	5°F to 15°F.
1	2	-10°F to 5°F.

Turn on defrosters when washers are operating during freezing temperatures.

SPRING AND SUMMER:

United 305 removes road scum and bug stains. Add 8 oz. (118 mL) of United 305 to container. Fill with water.

NOTE TO CALIFORNIA USERS:

Follow only these directions.

In most areas of California, United 305 must be mixed with water in the ratio of 1 part United 305 with no less than 9 parts water and add mixture to washer systems.

For California Users In Type A* Areas: Mix 1 part United 305 with no less than 2 parts water and add mixture to washer system.

* Type A Areas include only the following: Del Norte, Shasta and Trinity Counties, the Great Basin Valley, Lake Tahoe, Mountain Counties, and Northeast Plateau Air Basins, as defined in Title 17, California Code of Regulations.

NOTE TO OREGON AND TEXAS USERS:

Follow only these directions.

United 305 must be mixed with water in the ratio of 1 part United 305 with no less than 4 parts water and add mixture to washer systems.

KRYSTAL KLEAR Windshield Washer Fluid

KEEP OUT OF REACH OF CHILDREN.

 **DANGER-POISON**

DANGER – POISON

Contains Methanol (t# 67-56-1). May be fatal or cause blindness if swallowed.

FLAMMABLE MIXTURE. DO NOT USE NEAR FIRE OR FLAME.

EMERGENCY AND FIRST AID PROCEDURES:

SKIN: Flush with water — if irritation persists, call a physician or poison center.

EYES: Flush with plenty of tepid water for at least 15 minutes, lifting upper and lower lids occasionally. Call a physician or poison center immediately.

IF INHALED: Remove patient to fresh air immediately. Give oxygen or CPR if needed. Call a physician or poison center immediately.

IF SWALLOWED: INDUCE VOMITING only under the direction of a physician. Never give anything by mouth to an unconscious person. After vomiting, drink large quantities of water. Call a physician or poison center immediately. NOTE TO PHYSICIAN: Methanol is metabolized to formaldehyde and formic acid. Effects appear 6-30 hours after ingestion. Methanol CANNOT be neutralized or made non-toxic.
