

UNITED

L A B O R A T O R I E S

United 596 E-Z-GO:

- Prevents asphalt build-up in truck beds and other equipment.
- Is safe and easy to use.
- Can be diluted with up to 30 parts of water.
- Contains no Petroleum Distillates, Fuel Oil or Chlorinated Materials.

DIRECTIONS FOR USE:

Apply an emulsion of **United 596** liberally to asphalt truck beds and other paving equipment to help prevent asphalt build-up without contaminating the asphalt. Asphalt compositions vary, test various dilutions to achieve optimum results. If make-up tank is used: Mix 1 part **United 596** with 15 to 30 parts water.

If a mixing wand is used: Set the mixing ratio to one part **United 596** to each 15-30 parts of water. If color and foaming indicators are not present in spray, only water is being applied to equipment.

GENERAL INFORMATION:

United 596 E-Z-GO is a safe, non-polluting, highly effective anti-stick formula for use in asphalt truck beds and other paving equipment. This product reduces worker hazard and eliminates hazardous waste. Rinsings are non-hazardous, and contribute very little B.O.D.
