LABORATORIES

**United 912 BLUE GEM** features the latest innovation in vehicle washing technology.

Its unique combination of several mild but highly effective surfactants produces a long-lasting lather to wash away dirt and grime. It contains Montan wax to produce a gem-like, showroom-quality shine on your vehicle while also offering the most resistance to oxidation and other environmental stresses, such as sun and acid rain.

#### United 912 BLUE GEM...

- Has a neutral pH that will not oxidize your vehicle's finish.
- Contains natural soy methyl ester to readily cut through grease, tar and bugs.
- Contains no harsh abrasives that scratch your vehicle's finish.
- Does not contain excess sodium or other ions that corrode your vehicle's finish.
- Has an environmentally friendly Earth Smart® formulation.
- Enhances the operation of commercial/industrial oily water separators.

#### DIRECTIONS FOR USE:

1. Thoroughly rinse the vehicle with water to remove loose dirt, grime and bugs.
2. Add 1 to 2 ounces of **BLUE GEM** per gallon of warm water and mix thoroughly.
3. Using a soft cotton cloth wash one section of the vehicle at a time with the diluted **BLUE GEM** solution.
4. Hose off the washed section of the vehicle. Do not allow the surface to dry prior to rinsing.
5. Wash and rinse the entire vehicle in this fashion one part at a time.
6. Using a dry soft cotton cloth or chamois, dry the entire vehicle to prevent any water spots from forming.
7. Lightly buff the vehicle with a dry, very soft cotton cloth.
8. Enjoy the gem-like luster and showroom quality shine United's **BLUE GEM Vehicle Wash and Wax** creates on your vehicle.

#### PRECAUCION AL USUARIO:

*Si usted no puede leer Ingles, pregunte a alguien que le traduzca esta etiqueta para usted antes de uso.*

**Manufactured and Sold Exclusively By:**  
**UNITED LABORATORIES, INC.**  
320 37th Avenue • St. Charles, IL 60174  
1-800-323-2594 • [www.unitedlabsinc.com](http://www.unitedlabsinc.com)

#### DIRECTIONS FOR USE: (continued)

**BLUE GEM** should be used at dilutions of at least 1:96 (1.5 ounces per gallon of water) to get demulsification. The product will emulsify and clean even better at 1:64 (2 ounces per gallon of water), though this may alter its ability to allow oils to quickly demulsify, thus hindering the efficiency of some oily separators.

#### EMERGENCY AND FIRST AID PROCEDURES:

**EYES:** Flush with cool water for at least 15 minutes while holding eyelids open and call a physician or poison center.

**SKIN:** Wash with soap and water. If irritation persists, call a physician or poison center.

**INHALATION:** Remove patient to fresh air. If irritation persists, call a physician or poison center.

**IF SWALLOWED:** Induce vomiting only under direction of a physician or poison center. Call a physician immediately.

An MSDS for this product is available through United's website, [www.unitedlabsinc.com](http://www.unitedlabsinc.com), providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react. Highly concentrated and not intended for consumer household use.
