Eyes: May cause irritation. Can cause burning sensation, redness, and pain.

Skin: May cause irritation on prolonged contact.

**Inhalation:** Breathing vapors and mists may cause mucous membrane and respiratory irritation. Excessive overexposure may cause headache, dizziness, drowsiness, depressed respiration and heart rate, heat rhythm irregularities, shortness of breath, unconsciousness or death. Intentional misuse by concentrating and inhaling contents may be harmful or fatal.

**Ingestion:** Exposure by ingestion is unlikely since an aerosol, but if occurs: may cause gastrointestinal irritation, nausea, vomiting, dizziness.

#### 4. FIRST AID MEASURES

**Eyes:** Flush with plenty of water for at least 15 minutes while holding eyelids open. Call a physician or poison control center immediately.
