United 314

GENERAL INFORMATION:

United 314 is designed to maintain clean heat transfer surfaces and extend the life of cooling system components by protecting them against scale, corrosion and silt deposition. Regular use of **United 314** as part of a complete treatment program will keep your cooling system operating cleanly and efficiently.

United 314 is Earth Smart® certified. Used as part of a United Laboratories Cycle Smart™ cooling tower treatment program, it guarantees that your employees will be safe and that it will have minimal environmental impact.

United 314 may be used in:

- Cooling Towers
- Evaporative Condensers
- Shell and Tube Heat Exchangers
- Air Washers
- Diesel Engine Cooling Systems

United 314 is low in toxicity and is non-polluting. A complete Cycle Smart™ program for an open, evaporative cooling system will combine **United 314** with a suitable biocide and biodispersant program.

DIRECTIONS FOR USE:

A feed and control package that combines a high quality tower controller with accurate chemical injection pumps should always be used when feeding **United 314** in order to ensure that the program is operating at the maximum efficiency possible. Your United Laboratories sales representative will recommend the most cost-effective package for your facility.

DOSAGE INFORMATION: Your United Laboratories representative will make recommendations on the dosage required at your facility. The level of **United 314** present in your system water can be determined by analysis using the United WT917 test kit. Regular monitoring of program parameters should be made to ensure optimal performance.

Earth Smart® Cooling Tower Concentrate

KEEP OUT OF REACH OF CHILDREN.

CAUTION

**SEE SIDE PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS.**

PRECAUCION AL USARIO:

Si usted no puede leer Ingles, pregunte a alguien que le traduzca esta etiqueta para usted antes de uso.
