

**COIL SHINE** is formulated with **H Factor™** technology which adds an Oxygen molecule to mold, mildew, slime, scale, and deposits to eliminate these tough conditions and frees Hydrogen into solution, improving water solubility.

- Revolutionary **H Factor™** technology formulation penetrates and dissolves mold, mildew, slime, scale, and deposits to brighten chiller and evaporator coils without harsh scrubbing.
- **NO HARSH FUMES** with **H Factor™** technology.
- Great for aluminum, copper and iron based metals.
- No etching of metals.
- Hypoallergenic – Contains no dyes, no fragrances.
- Clings to vertical surfaces.
- Easy-to-use...Spray it on. Let the foaming, fizzing action go to work.

**DIRECTIONS:**

1. Spray **COIL SHINE** on coils to be cleaned. Let **COIL SHINE** remain in contact with surface for 10 to 20 minutes. You may wish to reapply **COIL SHINE** once or twice during that time. Listen to the product fizz and watch it foam as it goes to work on coil deposits. Tougher build-up may require longer contact time and some agitation with a scrub brush.
2. Rinse with water on condenser coils. No rinsing necessary on evaporator coils.
