LABORATORIES

GREEN-DC All-Purpose Cleaner Degreaser provides you with a green product that really works. It's all part of United's philosophy of Responsible Innovation™. **United 374** is specially formulated to provide great performance as an all-purpose cleaner and degreaser for most industrial and institutional cleaning applications. Compared to high pH, butyl-based products, this formulation works as well as, or better than the "old" chemistry, while the Earth Smart® Certified formulation makes it both safer in use and for the environment.

GREEN-DC:

- Earth Smart® Certified
- Contains No Hazardous Components
- All Zeros or Ones for HMIS Numbers
- Non-Flammable
- VOC-Free

GREEN-DC penetrates, loosens and lifts grease, oil, grime and dirt from hard surfaces. Safe to use on rubber, plastic, concrete, most painted surfaces and most metals. Test in an inconspicuous area before use with aluminum, copper and steel as it may cause discoloration.

GREEN-DC can be used in spray equipment, automatic scrubbers, manual equipment and for spray and wipe applications.

GREEN-DC is an ideal institutional cleaner for removing greasy soil from kitchen hoods, ductwork, light fixtures, stoves, filters, grills, food preparation equipment, walls, floors, restrooms, lunchrooms, etc. In industrial applications, use **GREEN-DC** to clean and degrease metal parts, machinery, automotive equipment, etc.

HMIS® III CODE: 0=MINIMAL 1=SLIGHT 2=MODERATE 3=SERIOUS 4=SEVERE PERSONAL PROTECTION INDEX: Glasses and Gloves	HEALTH	1
