

UNITED

L A B O R A T O R I E S

United 268 FRONT LINE F.O.G. Control is a solid blend of specifically selected strains of bacteria that provide superior degradation of organic wastes and F.O.G (fat, oil, and grease). This system will naturally and safely reduce the organic waste build-up and F.O.G. accumulations throughout the downstream lines. The bacteria are present in high numbers (4 billion CFU) to bio-degrade organic problems in your lines and prevent new ones from building up. **United 268 FRONT LINE** is designed to dissolve over a period of 60 – 120 days, providing extended protection.

FRONT LINE F.O.G. Control...

- Saves money by reducing costly maintenance.
- Provides 24-hour, continuous treatment of organic wastes and F.O.G.
- Contains specifically blended bacteria that target organic waste and F.O.G.
- Is easy-to-use and color-coded to indicate when replacement is needed.
- Significantly reduces malodors.
- Is extremely cost effective.
- Is safe for pipes and plumbing.
- Is Earth Smart® certified.

USES

Holding tanks, Sump pits, septic tanks and for Multi-residential buildings for F.O.G. control.

DIRECTIONS

In all applications remove wrapper.

Place unit in water holding area. Water will activate the bacteria and the water flow will distribute bacteria throughout the tank. In multi-residential buildings and high rise buildings, the further up stream the units are installed the more effective they are. Multi-residential units usually will require more than one unit per building.

Consult with your United Sales Representative for proper use.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Immediately flush with plenty of water for at least 15 minutes. If symptoms develop seek medical attention.

SKIN: Wash with soap and plenty of water. If irritation persists, seek medical attention.

INHALATION: Not applicable.

INGESTION: Get medical attention immediately. Rinse mouth and throat and drink several glasses of water to dilute. Never give anything by mouth to an unconscious person.

An MSDS for this product is available through United's website, www.unitedlabsinc.com, providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.
