**BIO BRIGADE DRAIN MEMBRANE II** is a natural, bio-based formulation made from food grade ingredients. It is specially formulated to control odors and insects in floor drains of commercial and institutional kitchens, showers and restrooms. **DRAIN MEMBRANE II** floats on top of water in the drain to quickly cap off odors and eliminate drain flies and other insects that tend to feed and breed in the drains.

This product features United's Fresh Air Technology™ and can actually work to improve the air near its use, with the proven benefits of peppermint oil. Peppermint oil has long been used to provide relief of respiratory problems and the fragrance is refreshing. According to the definition established by the Association of Occupational and Environmental Clinicians, this formulation is asthmagen-free.

**United 547 BIO BRIGADE DRAIN MEMBRANE II:**

- Earth Smart® Certified
- Bio-based
- VOC-free
- Asthmagen-free

**DIRECTIONS FOR USE:**

**FLOOR DRAINS:** Treat each floor drain, by pouring 3 to 4 ounces of **United 547 BIO BRIGADE DRAIN MEMBRANE II** directly into the drain every 3 to 4 days. The product will float on the water, creating a membrane to cap off odors and control insects.

Use a trigger sprayer to spray product around side walls of the drains that have bio-film build-up to kill drain flies and other insects on contact and through residual protection.

Drains with more turbulent flow will need more frequent treatment than drains in areas of little use. Consult your United Representative for further recommendations.

**GREASE TRAPS:** Pour 1 quart of **United 547 BIO BRIGADE DRAIN MEMBRANE II** into drain located nearest to the grease trap weekly.

**Note:** If spilled on floor, **United 547** may make floor surfaces slippery. Use a mild detergent/water solution to clean **United 547** from floor surfaces.
