NEEM-BAC Gelled Drain Treatment

NEEM-BAC Gelled Drain Treatment is an innovative bacterial blend containing specially selected strains of bacteria and Neem oil. It is designed to provide natural protection from build-up in drains and even the drain flies that feed and breed on that build-up.

NEEM-BAC's multiple strains of bacteria work in floor drains and more, to effectively degrade:

- Organic solids • Proteins • Starch • Cellulose • Grease

While the bacteria control build-up that often leads to back-ups, the Neem oil coats the build-up and starves insects by eliminating their food source. This eliminates infestations, simply by removing the food source for the drain flies.

The Earth Smart® formulation in **NEEM-BAC** contains no:

- Solvents • Nonylphenol ethoxylates (NPE) • Surfactants • Fragrances

The gelled formula allows added contact time with surfaces of the drain, giving the bacteria the time it needs to implant and begin degrading the build-up. With regular use, the natural activity of the bacteria and Neem oil keeps your drains running freely.

DIRECTIONS FOR DRAIN TREATMENT:

Initial Treatment: For a 2-inch diameter drain, pour 4 – 8 ounces of **United 757** directly into the drain. Then for best results, use a trigger sprayer with the product to spray visible side walls of the drain to assure a full coating around inner diameter of the drain. It is best to treat at the end of the day, when flow is at a minimum.

Maintenance Treatment: After initial treatment add 2 – 4 ounces to drain every 2 weeks or as needed depending on conditions. For intermittent treatment, product may be sprayed into the drain weekly using a trigger sprayer to coat the side walls of the drain.

NEEM-BAC is intended for use as part of a regularly scheduled drain treatment program.

PRECAUTIONARY STATEMENTS.**

PRECAUCION AL USUARIO:

Si usted no puede leer Ingles, pregunte a alguien que le traduzca esta etiqueta para usted antes de uso.

**Manufactured and Sold Exclusively By:
UNITED LABORATORIES, INC.
320 37th Avenue • St. Charles, IL 60174
1-800-323-2594 • www.unitedlabsinc.com**

Use **United 757 NEEM-BAC Gelled Drain Treatment** in:

- Floor Drains • Drain Lines
• Restrooms • Portable Toilets

DIRECTIONS FOR SECONDARY APPLICATIONS:

- Garbage Cans • Dumpsters • Garbage Chutes

Spray **NEEM-BAC** onto walls, sides and on any visible build-up in garbage cans, dumpsters and garbage chutes. The gelled formulation will control greasy build-up and insect food sources commonly found in these areas.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Immediately flush with water for at least 15 minutes. Call a physician or poison center.

SKIN: Wash with soap and water. If irritation persists, call a physician or poison center.

INHALATION: Remove person to fresh air. If discomfort occurs and persists, call a physician or poison center.

INGESTION: Immediately call a physician or poison center in case of ingestion. Rinse mouth out with water and drink water to dilute. DO NOT induce vomiting. Never give anything by mouth to an unconscious person.

An MSDS for this product is available through United's website, www.unitedlabsinc.com, providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.
