United 54 is a special blend of wetting agents and emollients for hand washing of dishes, cutlery and pots and pans. Its special formulation works well, even under the heavy grease and soil conditions encountered in institutional kitchens such as cafeterias, school lunchrooms, convalescent and hospital kitchens, restaurant kitchens, etc.

DIRECTIONS:

For dishes, use 1/2 to 1 ounce (15 to 30 mL) per gallon (4 L) of water. For pots and pans, use 1 to 2 ounces (30 to 60 mL) per gallon (4 L) of water. Heavy soil loads may increase the amount of **DOUBLE SUDS** needed.

For food plant and other industrial use: Equipment, utensils or surfaces subject to direct contact with food are to be thoroughly rinsed with potable water before reuse. Canadian Food Inspection Agency Approved.

DIRECCIONES:

Para lavar trastes use media a una onza (15 a 30 ml.) por un galon (4 litros) de agua. Para sartenes y cazuelas use una a dos onzas (30 a 60 ml.) por galon de agua. Para trastes demasiados sucios aumente la cantidad de **United 54**.
