L A B O R A T O R I E S

TEN STRIKE is an effective cleaner and descaler for removing soil, hardwater scale and uric acid crystals from urinals and toilet bowls. Each quart is equipped with an **ECONO-CAP**, for easy application. Apply **TEN STRIKE** under the flush rim of the toilet. **TEN STRIKE** is formulated to cling to vertical surfaces and it remains in contact with stains and scale, penetrating and dissolving for easy removal. **TEN STRIKE** is an effective delimer and descaler and may be used to remove lime, calcium, magnesium and other hard water deposits from shower stalls, ceramic tile walls and floors, swimming pool walls and fixtures, water meters and other acid resistant surfaces. Badly stained areas may require a second application.

DIRECTIONS FOR USE:

Pour several ounces (1 oz. = 29 ml) of **TEN STRIKE** on dampened bowl mop and swab entire bowl — inside, outside, under flush rim, toilet seat and cover. Rinse out mop in bowl water, flush, and then rinse entire unit with clean water before returning to use.

NOTE: USE ONLY ON ACID RESISTANT PORCELAIN. Do not stand bottle on surfaces that are not acid resistant. Accidental spillage on non-acid resistant surfaces should be rinsed immediately with water.

DIRECCIONES

Vacía varias onzas (29 ml. cada una) de **TEN STRIKE** en el mechón húmedo del escusado. Limpie toda la taza por fuera, por dentro, el asiento y la tapa. Enjuague bien el cepillo (mechón) en la agua de la taza — vuelva a llenar el tanque y vuelva a enjuagar el escusado.
