Put **VERMIN VANQUISHER** to use to control and prevent the invasion of rodents in areas where they are not wanted. Formulated with **Fresh Air™ Technology**, **VERMIN VANQUISHER** provides aromatherapy benefits of peppermint oil for the people who enter the area, but mice, rats and other rodents will be naturally driven away.

VERMIN VANQUISHER:

- Naturally repels mice, rats, ground squirrels, bats and other rodents.
- Contains no dangerous poisons.
- Bio-based and biodegradable.
- Earth Smart® Certified to be safer in use and safer for the environment.
- Provides fresh peppermint fragrance.

Perfect for use in: Storage sheds, utility boxes, garages, basements, attics, barns, drop ceilings, wall spaces and other areas where rodents may be a problem.

DIRECTIONS FOR USE:

Place repellent blocks at known entry points, nesting areas or areas rodents are known to hide or feed. For prevention place one block in an average size space. Increase number of blocks depending on size of space and getting the desired results, spacing them throughout the area. For heavier infestations, use more from the beginning of treatment to drive the rodents out. Repels rodents on average for 30 days, depending on airflow. Do not place directly on furniture or fine finishes without testing in an inconspicuous area first.

Storage: Keep repellent blocks sealed tightly in their container until ready for use to maintain effectiveness.
