

UNITED

BATCH # : 

L A B O R A T O R I E S

UNITED 382 BEE SAFE Biobased Crawling Insect Spray is derived from essential botanical oils that work together naturally to kill crawling insects. This Responsible Innovation™ from United Laboratories is Earth Smart®, meaning it is safer in use and safer for the environment. Having a formulation comprised of renewable resources adds even further benefit for the environment.

BEE SAFE is designed to...

- Be safe for you
- Be safe for the environment
- Be safe for use around animals
- Be safe for beneficial insects like the bumblebee

BEE SAFE is anything but safe for crawling insects...it's formulation works to quickly affect the nervous system of these pests, while suffocating and dehydrating them for a quick kill.

BEE SAFE Kills:

CRAWLING INSECTS: Ants, beetles, centipedes, cockroaches, crickets, earwigs, fleas, silverfish, spiders, termites, ticks and many other crawling insects.

FLYING INSECTS: Works on some flying insects. DO NOT use this product to control bees, wasps or hornets.

DIRECTIONS FOR USE:
USE ACCORDING TO LABEL INSTRUCTIONS.

For Indoor/Outdoor Applications:

Thoroughly apply **BEE SAFE** to all visible insects to ensure a rapid kill. Make sure all insects receive a thorough coating of **BEE SAFE**. Resilient insects may require additional treatments of **BEE SAFE**.

Note: **BEE SAFE** may make floor surfaces slippery. Use a mild detergent/water solution to clean **BEE SAFE** from floor surfaces.

For Crack/Crevice Treatment:

The product has demonstrated residual activity on certain crawling insects. Thoroughly apply **BEE SAFE** to all cracks/crevices where insects may be hiding, living, and crawling.

BEE SAFE may stain or alter the appearances of substrates including but not limited to baseboards, drywall, painted surfaces and concrete. Test in an inconspicuous area first. To minimize staining, wipe away excess with an absorbent cloth and mild detergent/water solution.
