

WIPE AWAY ILLNESS WITH...

# United 367 ILLNESS PREVENTION KIT

Protecting staff, students and all who enter your facility from the spread of illness caused by most common germs is important, particularly in today's environment.

This convenient **ILLNESS PREVENTION KIT** provides you with hospital grade products to disinfect hard surfaces and sanitize hands to prevent the spread of:

- Swine Flu (Novel H1N1 influenza)
- MRSA (Methicillin-resistant Staphylococcus aureus)
- VRE (Vancomycin Resistant enterococcus)
- Tuberculosis
- E. coli (Escherichia coli)
- Norovirus and more.

Use this kit to protect your classroom, office or facility from the germs that cause these illnesses and much more; particularly for those times when it is needed between the normal, full cleaning and sanitizing schedules.

Included in this kit you'll find two handy products often used within the health care industry to help you wipe away and control the spread of illness. These products are keeping in line with the Centers for Disease Control's most common recommendations:

- **United 368 Hard-D-Wipes** (1 canister containing 180, 6" x 7" hard surface disinfecting wipes)
- **United 369 Hand-D-Wipes** (1 canister containing 85, 6" x 8" hand sanitizing wipes)
- 1 Illness Prevention Outline reflecting recommendations for controlling the spread of illness.

**Controlling the spread of illness can be just a wipe away!**
