UNITED 969 UNI-DRAW VL Vanishing Lubricant is an odorless, solvent-based vanishing oil with a minimum flash point of 125°F. It contains an ester-based lubricity agent, is water-white, and performs many light-duty drawing operations typically requiring vanishing oil. The solvent and lubricant were chosen to have a minimal deleterious effect on materials and plastics.

UNI-DRAW VL conforms with 21 CFR 178.3910, food and drugs, published by the office of federal register; wherein certain substances may be used as surface lubricants on metallic surfaces that may have food contact, provided the residual does not exceed 0.015 mg/in².

UNI-DRAW VL Features:

- Low odor
- Fast drying
- High operator acceptance
