L A B O R A T O R I E S

**UNITED 970 UNI-DRAW MD** is chlorinated oil compounded using highly refined base stocks and carefully selected additives. The result is a product which provides effective lubrication, heat dissipation and anti-weld action through a broad range of machining operations. The outstanding load-carrying and anti-weld properties of **UNI-DRAW MD** make it ideal for moderate duty machining jobs – even stainless steel work. Yet the inherent flexibility of this product makes it suited for multi-purpose duty.

#### **UNI-DRAW MD Features and Benefits:**

- Specially formulated to provide exceptional lubricity.
- Premium moderate drawing fluid.
- Heavy duty stamping oil for thicker gage metals.
- Use for difficult, gummy steel and tool steel.
- Great on low-speed applications.
- Improves surface finish and increases cutting speeds.
- Excellent extreme pressure lubricity properties.

#### **RECOMMENDED USES:**

- Moderate Draws
- Gear Making
- Milling
- Reaming
- Threading
- Turning
- Tapping

**NOTE:** Will stain non-ferrous metals.
