

UNITED

L A B O R A T O R I E S

UNITED 972 UNI-DRAW HD is chlorinated oil compounded using highly refined base stocks and carefully selected additives. The result is a product which provides effective lubrication, heat dissipation and anti-weld action through a broad range of machining operations. The outstanding load-carrying and anti-weld properties of **UNI-DRAW HD** make it ideal for tough machining jobs – even stainless steel work. Yet the inherent flexibility of this product makes it suited for multi-purpose duty.

UNI-DRAW HD is specially formulated to provide exceptional lubricity and is ideal for heavy duty applications such as cutting, drilling and shearing applications.

UNI-DRAW HD Features:

- Well suited for multi-purpose use.
- Use for difficult, gummy steel, tool steel and heavy stock.
- Great on low-speed applications.
- Improves surface finish and increases cutting speeds.
- Excellent extreme pressure lubricity properties.

RECOMMENDED USES:

- Deep Draws
- Gear Making
- Milling
- Reaming
- Threading
- Turning
- Tapping

NOTE: Will stain non-ferrous metals.
