CONTROLS ODOR PROBLEMS THAT WERE ONCE CONSIDERED UNCONTROLLABLE RECOMMENDED WHEREVER ODORS EXIST

- MUNICIPALITIES • FOOD INDUSTRY
- INDUSTRY • MEDICAL CARE FACILITIES
- INSTITUTIONS
- TRANSPORTATION INDUSTRY
- COMMERCIAL ESTABLISHMENTS

DESCRIPTION:

United 80 Odor Neutralizer destroys and controls malodors through a complex reaction upon the molecules producing the malodors. It is a free flowing granular product that lends itself to easy distribution over the area to be treated.

United 80 Odor Neutralizer works instantly and is effective indoors and outdoors.

United 80 is non-caustic, non-corrosive and neutral. It does not affect pH factor in any way whatsoever.

DIRECTIONS:

United 80 needs only to be sprinkled over the area or material causing the odor. This may be accomplished by hand broadcasting **United 80** or by using one of the **DISPENSING DEVICES**. For small areas we can provide the **United 80** Shaker Can, or the **A570 Hand Held Spreader** for large areas.

Use **United 80** to control malodors in areas or containers that will be exposed to odor causing debris. It is advisable to use **United 80 BEFORE** the debris is present, and also **AFTER** the debris arrives. A few typical examples are: sewage sludge beds and compost piles, garbage equipment, incinerators, "kill room floors" and medical dressing waste containers.

For general control of malodors **United 80** should be used in jails, hospitals, nursing homes, hotels, meeting rooms, etc.

Floor areas swept or vacuumed with **United 80** will be well deodorized. It may be mixed with sweeping compound for deodorization.

United 80

Odor Neutralizer

KEEP OUT OF REACH OF CHILDREN.

CAUTION

MAY BE HARMFUL IF SWALLOWED. SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

PRECAUCION AL USARIO:

Si usted no puede leer Ingles, pregunte a alguien que le traduzca esta etiqueta para usted antes de uso.

**Manufactured and Sold Exclusively By:
UNITED LABORATORIES, INC.
