

UNITED

LABORATORIES

With **United 956 DUO-ZYME™** you get two products in one:

- A natural-powered drain system maintainer.
- An outstanding grease cutter and cleaner.

GENERAL CLEANING APPLICATIONS:

- An excellent neutral cleaner. The same surfactants and enzymes that work to eliminate build-up in your drain system cut through the toughest grease and dirt on:

- Floors • Walls • Counters • Carpeting
- Stainless Steel Equipment • Trash Receptacles

GENERAL CLEANING USE INSTRUCTIONS:

As a general rule of thumb, light-duty degreasing and cleaning can be effectively accomplished with a dilution of 100:1. Medium-duty jobs require 50:1 while heavy soil may require a dilution of 10:1. Depending upon your soil, you may have to adjust the level to fit your application. Foam should break within 30 seconds at the correct dilution.

Pre-test soft goods (carpeting, upholstery, wallpaper etc.) in an inconspicuous spot to assure color fastness. Concentrated **DUO-ZYME™** may discolor plastic or vinyl if left on surface.

FOR FOOD, PLANT AND OTHER INDUSTRIAL USE:

Rinse food contact surfaces with potable water after cleaning with **United 956 DUO-ZYME™**. **United 956 DUO-ZYME™** is a non-WHMS regulated product.

FOR CLEANING USE WITH COLD TEMPERATURES:

For walk-in freezers and coolers – even if the thermometer falls below freezing **United 956** gets cleaning jobs done. Adjusting the percentage of product to water provides protection against freezing in colder temperatures. See the chart below for guidelines to use with cold temperatures:

PERCENT SOLUTION STRENGTH OF United 956	FREEZING POINT (F)
100%	17°
80%	20°
60%	24°
50%	25°
40%	27°
30%	27.5°
20%	30°
10%	31°
5%	31.5°

DRAIN SYSTEM APPLICATIONS:

Regular drain system maintenance with **United 956 DUO-ZYME™** will eliminate build-up and odors throughout the plumbing system and minimize the opportunities for clogs to form. Ideal for use in grease traps, showers, kitchens, slop sinks, bar drains, laundry drains, urinals and toilets.

DRAIN SYSTEM APPLICATIONS: (continued)

The enzymes trigger natural bacteria action — consuming organic waste. **DUO-ZYME™** even breaks down the tough, saponified grease that forms a hard cap in grease traps and lines.

DRAIN SYSTEM MAINTENANCE USE INSTRUCTIONS:

For optimum effectiveness, **DUO-ZYME™** must be regularly injected into the drain system. It may be added manually or automatically using an A855 or A877 Peristaltic Metering Pump.

Every drain and fixture in your facility should be treated with **DUO-ZYME™** using the following guidelines:

AREA	DAILY TREATMENT FOR FIRST WEEK	TWICE-A-WEEK TREATMENT FOR ONGOING USE
SINKS	4 oz (120 mL)	2 oz (60 mL)
TOILETS	4 oz (120 mL)	2 oz (60 mL)
URINALS	4 oz (120 mL)	2 oz (60 mL)
FLOOR DRAINS	4 oz (120 mL)	2 oz (60 mL)
PIPES (2 - 4")	4 - 8 oz (120 - 250 mL)	4 oz (120 mL)
PIPES (6 - 10")	12 - 16 oz (350 - 500 mL)	12 oz (350 mL)

Laundry drains should have lint catchers — especially if the drain is on a septic system.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Immediately flush with plenty of water for at least 15 minutes. Seek medical attention.

SKIN: Wash with soap and plenty of water. If symptoms develop, seek medical attention.

INHALATION: Remove patient to fresh air. If symptoms develop, seek medical attention. If not breathing, give artificial respiration.

INGESTION: DO NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.

An MSDS for this product is available through United's website, www.unitedlabsinc.com, providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.
