

UNITED

LABORATORIES

United 973 UNI-PROTECT Corrosion Inhibitor & Cleaner is ideally suited for protection of in process parts, which are wet with synthetic grinding coolants or soluble oils. This solvent-based rust preventative can be used on all metals. **United 973** dries rapidly without need of heat, leaving a light protective film that will protect parts stored indoors for up to one year.

UNI-PROTECT offers protection for 60 plus days in a humidity cabinet and meets requirements of MIL-C-16173 D (3). Also provides protection against black stain and neutralizes fingerprint corrosion.

UNI-PROTECT is not recommended for outdoor protection or other severe conditions, such as environments with acidic fumes.

UNI-PROTECT provides water displacement properties, for use on parts directly after grinding or machining operations. The water from these operations readily separates from **United 973** and can be removed by periodic draining of the bottom water layer.

UNI-PROTECT can be also be used as a penetrating oil and is effective in cleaning machine tools and gages.

WARNING: Flammable Liquid!

Remove all ignition sources. Vapors may cause flash fire. Use dry chemical CO₂, water spray or foam. Move containers from fire area if possible without risk.

SPILL:

Eliminate all sources of ignition. In case of spillage, absorb with inert material and dispose of in accordance with applicable regulations.

HANDLING AND STORAGE:

Store in a cool place away from ignition sources.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Flush with plenty of water for at least 15 minutes. If irritation occurs get medical attention.

SKIN: Flush with plenty of water for at least 15 minutes. Wash with soap and water. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes before reuse. If irritation occurs get medical attention.

INHALATION: Remove to fresh air immediately. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get medical attention.

INGESTION: DO NOT induce vomiting. If conscious, give several glasses of water to drink. Get medical attention.
